

## ISD2022 PROCEEDINGS

### About ISD2022

The 30th International Conference on Information Systems Development ([ISD2022 Cluj Napoca](#)) was hosted by Babeş-Bolyai University, Cluj Napoca, Romania, on 31 August–2 September, 2022. The theme of ISD2022 was *AI for IS Development and Operations*. The conference focused on how Artificial Intelligence can empower Information Systems and how this facilitates or impacts digital transformation in its various aspects.

#### International Steering Committee

Chris Barry, *National University of Ireland, Galway*

Michael Lang, *National University of Ireland, Galway*

Henry Linger, *Monash University*

Christoph Schneider, *IESE Business School*
